

**Wheat Producer – Questionnaire  
for Research Project**

**Influence of Genotype, Weather and Crop Management on Gluten Strength  
and the Sustainability of CWRS as a Premium Wheat Class on the Prairies**

**Subproject 5: Quality and Gluten Strength of CWRS Wheat Deliveries by Farmers**

Thank you for your expression of interest to supply a wheat sample for this research study. Your participation is essential to its success. In order to utilize your sample in the study, we need the following information to be returned to us before your participation is confirmed and you ship the sample. Please complete this questionnaire and return it to us by scanning the document and emailing it to: [glutenstrength@umanitoba.ca](mailto:glutenstrength@umanitoba.ca) or by regular mail:

**Mailing Address:**  
Gluten Strength Project  
University of Manitoba  
Department of Food Science  
250 Ellis Building  
Winnipeg, MB R3T 2N2

**Grower Name and Email address:** \_\_\_\_\_

**Legal Location where wheat was grown:** \_\_\_\_\_

**Variety (please circle one):** Glenn, Stanley, Utmost, Carberry, Brandon, Cardale, Stettler, Unity, Harvest.

**Grain yield:** \_\_\_\_\_

**Known or estimated wheat grade:** \_\_\_\_\_

**Was fertilizer applied last fall and/or this growing season? Yes / No** (please circle one)

**Was a herbicide product applied this growing season? Yes / No** (please circle one)

**Was a fungicide product applied this growing season? Yes / No** (please circle one)

**Was an insecticide product applied this growing season? Yes / No** (please circle one)

**Was the field soil tested last fall or this spring? Yes / No** (please circle one)

**Would you be willing to share these agronomic details with us? Yes / No** (please circle one)
